

R-Seal Order Process

- 1.** Distributor salesperson quotes with provided unit pricing. Include accessories as required including base, angle, roof/wall trims, double faced and patch tapes, and freight.
Quotes are FOB PIP Seattle (See below for load chart).
Send customer quote with Design Considerations page.
- 2.** When order received from your customer send PIP the PEMB plans with R-Seal Order Sheet as complete as possible.
- 3.** PIP sends an order confirmation and layout for signed approval to Distributor salesperson.
- 4.** Once PIP receives signed approval back project will be scheduled for production. Cancellation fees apply once layout approved for fabrication and production time is allocated.
- 5.** When completion date and desired delivery date are determined PIP will call and schedule with the freight company Distributor has designated for the order.
- 6.** Once order is scheduled for pick up notice will be sent to Distributor salesperson.

Load Chart
